

# BY CHANCE

Chorus:

Was it by chance we should meet in this place  
Was it by chance that our paths should cross  
Was it by chance we should come face to face  
Maybe not by chance at all

The roads that we all walk upon  
Seem so far apart, but  
The roads are much closer in the heart  
The common path we share  
Is the one that's brought us here  
To open up our minds and our hearts...  
(chorus)

There are points on a compass  
A thousand directions  
But only one will bring us to this place  
A place where we'll be  
One in harmony  
A place where we'll be together...  
(chorus)
