

Be Still

Ex. 14:13 - 14

Day after Day
It seems I'm learning to stand
More and more on my knees
I must confess
That I don't know how to address
All the darkness pursuing me...(chorus)

Chorus:

All I really need is your deliverance
When I'm here with you I feel confidence
Just to be apart of your countenance
Means I'll finally learn how to live and
Be Still

I want to live my life looking ahead
Instead of over my shoulder
I want to know my life is worth living today
Not just living to get older...(chorus)

Bridge:

I will not be afraid
I will stand straight and tall
Because you deliver me
I will not run away
From the darkness today
Because you fight for me...

I'm tired of living a life running away
From what I can or can't see
I'm going to live my life standing firm
Because you go before me...(chorus)
