

REAL LOVE

Living in a masquerade
Hiding in the lost and found
Love has seen you walk away
Leaving for the nowhere bound
There's a wind out there that's blowing
And it's calling to your heart..... its

Real Love

The kind that gives you hope and builds your trust
The kind that comforts you and
Will always lift you up
When things are getting rough
The strength to stand
When you have had enough.... Nothing like
Real Love

Taking all the world can give
Thinking this will fulfill me now
Unlocking mysteries of life
Still there's emptiness somehow
I can feel there's something lacking
I can feel there's something more... its (chorus)

Stars and seas will fade away
And the world will end some day
There is only one thing that will last...
Real Love

As the beating of my heart
So the knocking at my door
Standing there with open arms
Loving me forever more
You will always be there for me
You will never walk away.... Its (chorus)
